FINDING WORK FOR GRADUATES OF CITY SCHOOLS

The committee appointed some time ago by President Trent of the Young Men's Christian Association, to make a study of all positions open to boys and young men who have finished school, has nearly completed its work. At a meeting held last Friday afternoon, J. C. Davis and L. N. Cox, supervising principals of schools in the city, gave a report on the relation of public schools to the fitting of boys for the best occupation open to them and of the proper guidance of these who are forced to leave school while still in the grammar grades and seek employment.

Another meeting of the commission will be held Friday afternoon at 2:30 o'clock, at which time Elijah Mackenzie, superintendent of the Beretania mission; W. L. Howard, W. S. Bowen, R. M. Cross, and A. F. Larimer will report upon the various employers who have been interviewed, and who have positions open. Edgar Wood, principal of the Normal school, will read a report on the progress of vocational guidance on the mainland. After these reports have been read by the different members of the commission, the secretary, R. M. Cross, will compile a general report to be handed to President Trent.

As a result of these preliminary investigations it is likely that a larger commission, including the present members and others interested in vocational guidance and training, will be appointed. This commission will work in cooperation with the public and private schools throughout the city toward the establishment of a vocation bureau in connection with the board of education. It will also interest itself in the submitting of plans for the establishment of vocational schools on the different islands.

ESTIMATES CALL FOR MORE FUNDS

Funds for the completion of all coast defenses on Oahu now projected, and for the electrical installation pertaining to them, are included in the estimates of General William H. Bixby, chief of engineers of the army, in his annual report submitted to Congress December 2.

For the fortifications in the insular possessions the estimates aggregate \$1,225,869, including sea-coast batteries for Hawaii, \$70,000; for the Philippines, \$1,000,000; for electrical installation, Hawaii, \$24,468; for case-mates and galleries for mines in the Philippines, \$67,000.

The \$70,000 is the balance of an appropriation of about \$125,000 for constructing the 6-inch and 3-inch batteries that are to guard the entrance to Pearl Harbor. Emplacements for the 12-inch guns at Fort Kamehameha and the 14-inch guns and 6-inch battery at De Russy, are practically complete and the mortar battery at Pearl Harbor is provided for, so that this sum will complete the sea-coast defenses of Oahu as far as present plans go. It is also believed here that the \$24,468 estimated for electrical installation, will cover the cost of completing the telephone, lighting and fire control systems.

KICK AT 'FARMING' ON HILO PRISONERS

The Portuguese paper A Setta, published on the Big Island, seems to be keeping a watchful eye on things municipal. In the issue of that paper of December 5, is the following:

Some time ago Hilo indulged in a spirited sensation over the farming out of county prisoners to private persons. Some county officials were found guilty of utilizing a few prisoners as gardeners, yard-boys, and in fact having private work done at the expense of the county. Owing to the criticisms expressed at the time, we imagined that the practice had ceased, but to our surprise, we are informed that it is still in vogue. The Board of Supervisors now in session should investigate the matter, and if the charge is found true, a just compensation should be demanded from the officials who are skinning the County of its prison labor. There are so many skin games going on in this County, that some drastic measures will have to be enforced before this petty graft is eradicated from our County system. We sincerely hope that the police department will supply the Supervisors with a list of all prisoners who are at present being farmed out to private persons, or County officials, and that daily wages are collected for their work, since the county has the honor of feeding the prisoners.

SCIENTISTS BRAVE CRATER'S DEPTHS

With the pit of Hileman in a state of intense activity, Dr. E. S. Shepherd, of the Geophysical Laboratory of the Carnegie Institution, accompanied by H. O. Wood, the assistant of Professor J. J. and Alex. Lanaster, the Volcano House guide, descended into the crater last week to a depth of four hundred feet for the purpose of collecting a quantity of the nascent gas for analyses. The descent was made by the use of rope ladders for the first hundred and fifty feet, and then the scientist and his companion scrambled down the rest of the way over the crumbling lava to the ore level. Sufficient gas for the analyses was obtained from one of the open vents. Dr. Shepherd has waited

WILSON ALREADY BEGINS PICKING CABINET OFFICERS

HAMILTON, Bermuda, Nov. 30.—The president elect makes no secret of the fact that he is forming a tentative cabinet slate, subject to revision when he has had a chance to confer with the party leaders. It can be said on excellent authority that Representative A. Mitchell Palmer of Pennsylvania, Albert J. B. Benson of Texas, Senator G. W. C. Rogers of North Carolina, Josephus Daniels of North Carolina, and Dr. Harvey W. Wiley of the district of Columbia appear in the list.

Daniels is favored for postmaster general, Burleson for the navy portfolio, Doctor Wiley for secretary of agriculture, Palmer either for the war or treasury, and Senator Gore, the blind statesman from Oklahoma, for attorney general.

Doubt About Bryan.
Whether Bryan will be asked to become premier of the cabinet is a question which only Wilson can answer. It is believed even if Bryan is invited into the cabinet he will decline.

Whatever may happen to Governor Wilson's tentative cabinet slate when he confers with William F. McCombs, chairman of the national committee, with W. G. McAdoo, vice chairman, who is mentioned in connection with the secretary of state, Bryan and other party leaders, it is considered certain that two names will not be erased—those of Palmer and Daniels.

Another appointment considered as good as settled, although no official announcement has been made by Wilson, is that of Joseph P. Tumulty of Jersey City as secretary to the president.

Delay for Inauguration.
Wilson is willing to take the oath of office as president of the United States without ostentation March 4, and that the formal ceremonies that every fourth year attract thousands of citizens to Washington be postponed until the last Thursday in April. To that extent he has endorsed the propaganda in favor of a later inauguration when the weather usually is propitious at the national capital.

APPLEGARTH, LATEST ENGLISH SENSATION TO DISCUSS COMMISSION

The sensation of the London athletic season occurred recently when W. R. Applegarth created a new world's record of 19.25 seconds for 200 yards at Kennington Oval. That, of course, is easily the best time ever accomplished at this distance in England, but it is probable that it is Craig was putting up an equally good performance when he created his two records at 21.15 seconds for 220 yards. Craig, of course, was not timed at 200 yards, and it is probable he did not stand for a record in consequence of it.

Last year A. P. Craig, the Australian professional sprint champion, is often said to have covered 200 yards in 19 seconds when he defeated Frank Harrison in three years.

SPECIAL BOAT FOR THE FIFTH

After all, Oahu is not one of the two islands of Oahu that would have been stationed here for nearly a month of time, especially at this season of the year. The War department

has decided to provide a special transportation for the relief of the fifth port for the incoming organization, by the fourth home. Arrangements which will make the round trip to Honolulu, and the "Friend" returning with the fifth as soon as it can get aboard. The transport Sherman, now at San Francisco, has been picked for the voyage, and it will sail in company with the Logan on the regular trip about January 6. It is scheduled to leave Honolulu about Jan. 16th.
